ABSTRACT .

2

3       A Christmas tree decoration organizer including a box  
4       having a bottom and upwardly extending opposing sides and end  
5       walls, terminating in a rim. A plurality of ornament hangers  
6       having opposing ends are removably coupled within the box,  
7       suspended above the bottom for receiving and supporting a  
8       plurality of hanging ornaments. A bulk storage space for  
9       storing outermost decorations of a Christmas tree is defined by  
10      the bottom, lower portions of the opposing sides and the end  
11      walls, and the plurality of ornament hangers. An ornament tray  
12      is positioned within the box and supported above the plurality  
13      of ornament hangers for receiving and holding a plurality of  
14      Christmas tree ornaments. A separator panel is removably  
15      positioned covering the ornament tray and defining a light  
16      compartment thereabove. A cover is removable placed over the  
17      rim, closing the box.
